DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-2 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vaucher ('849) in view of the prior art described at pages 1-2 of applicant's specification. Contrary to applicant's assertion, bottom plate 13 includes sunrise and sunset time designating sections 25, 26 which indicate sunrise and sunset times through openings 14, 15, see col. 3, lines 8ff and 16-22.

2. With respect to the hour hand rotating once in 24 hours, this feature is conventional and acknowledged by applicant at pages 1-2 of the specification, particularly at page 2, line 8. Thus, it would be obvious for one skilled in the art to design the timepiece of Vaucher according to the 24 hour scale with the hour hand rotating accordingly, as an obvious alternative to provide military time.

3. Claim 3 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vaucher('849) and the prior art at pages 1-2 of applicant's specification as applied to claim 1 above, and further in view of Chen. Provision of a sun symbol on the hour hand of Vaucher would be obvious to one skilled in the art as a means to identify the device as a solar timepiece, as done in Chen.

4. Claims 4-6 and 8 are allowed.
